THE DROP BEARS

Sponsorship Prospectus
2026

WHO ARE THE DROP BEARS?

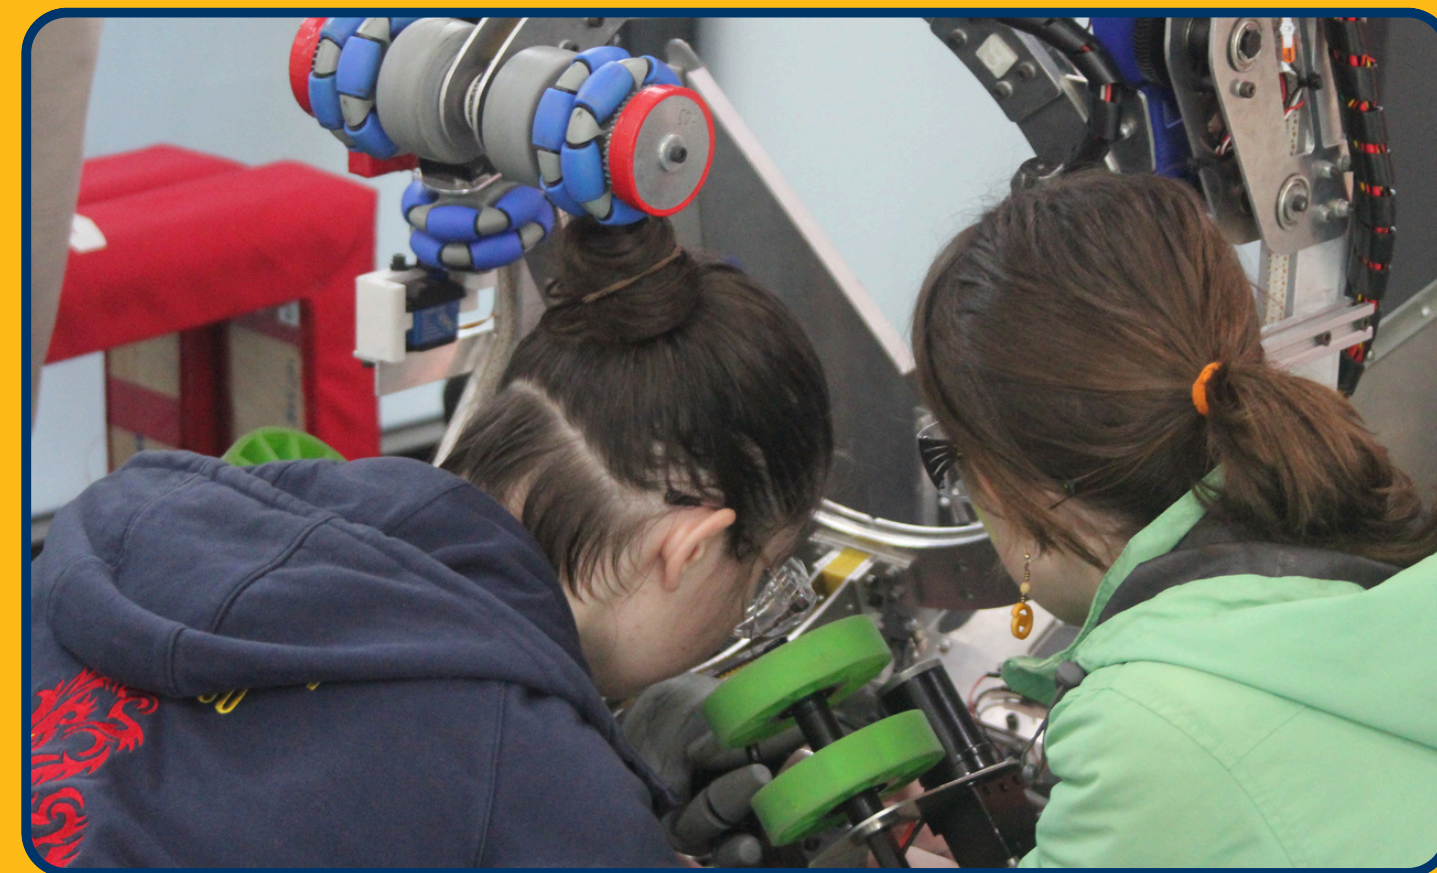

- High school students building technical and teamwork skills
- Supported by volunteer mentors with industry experience
- Successfully competing locally and internationally for 12 years
- Hosted by the Australian Centre for Field Robotics at University of Sydney

OUR STUDENTS

- Aged 14-18
- Design, prototype and build a competitive robot in just 8 weeks
- Learn software, mechanical and engineering skills from mentors and each other
- Develop collaboration, problem-solving and communication capabilities
- Create an inclusive team environment to boost students' confidence

THE COMPETITION

- FIRST Robotics Competition is an international nonprofit-led initiative that promotes STEM education through an exciting annual design, build and compete challenge
- Each January a new challenge is issued, and teams have 8 weeks to build their robot
- Drop Bears compete in local events where we form alliances with other teams to play the game

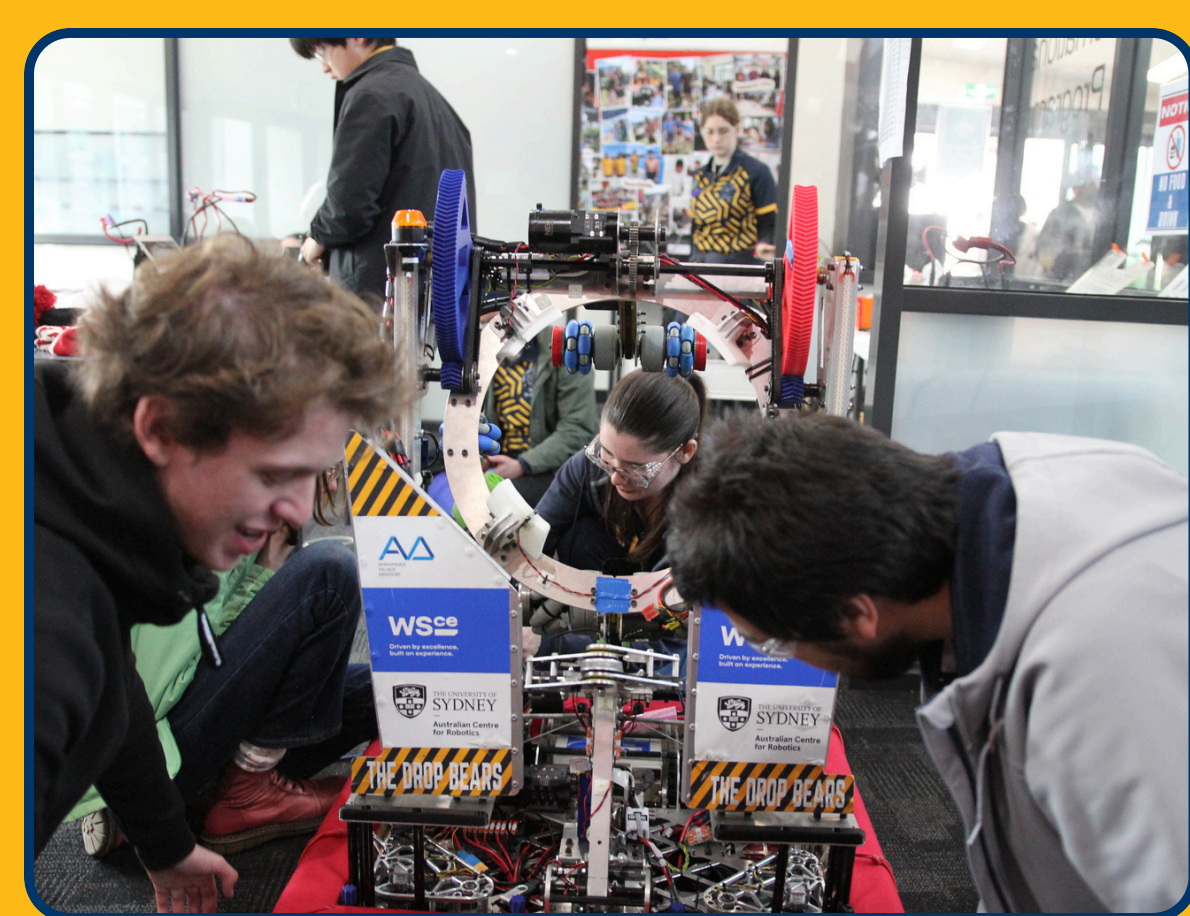

See us in action: <https://youtu.be/VUXFyxdBxkE>

OUR SUPPORT NETWORK

- **Mentors** volunteer their time to share their skills with the students
- **Parents** support students to attend workshop sessions and competitions
- **Sponsors** fund our competition registration fees and new tools and materials

WHAT'S IN IT FOR YOU?

- Support local students to build their STEM technical and interpersonal skills
- Promote your business to local families and schools
- Demonstrate community engagement to your employees and customers
- Logo recognition on our robot, website and social media channels
- Content for your own social channels or staff engagement messaging

We are seeking sponsorships of \$1000-\$5000
